

North Quick Release Harness Buckle on the Wonder Bar

This is an easy, but helpful tip on how to slide your harness buckle on and off.

Helpful Tools:

- Just your hands

Grab buckle with thumb and forefinger as shown.

Push buckle over clasp hook as shown. Make sure buckle is seated all the way into hook and snaps shut.

Buckle On!

Insert and secure side clasp.

Tighten harness straps.

To release, grab buckle release tab and push quick-release clip button.

Push release tab down and out away from you, while pushing quick-release clip button.

Buckle will angle, then top of buckle should release first.

Released!
